BAKFLIP HD

Heavy Duty Powder Coated Aluminum Folding Tonneau Covers

Heavy Duty

Strength, Security & Style!

With upgraded drain system, refined OE features, heavy duty seals and an unrivaled 2 year warranty!

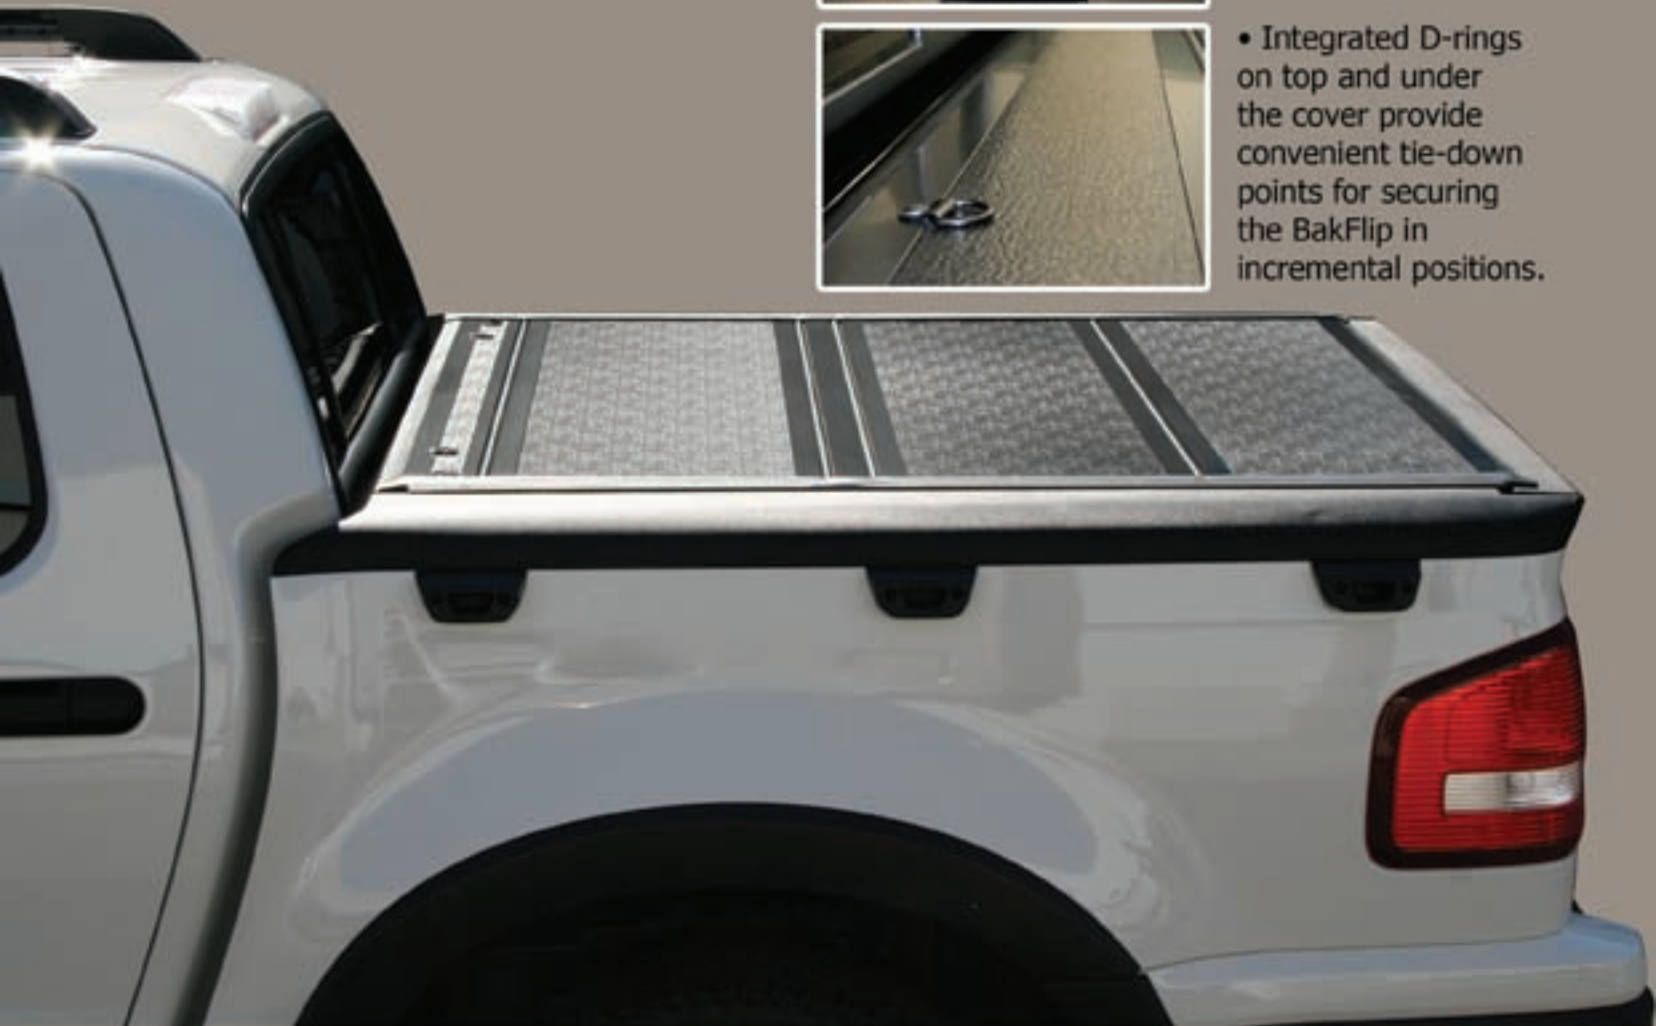

- All components are powder coated with refined finishes.

- Latches and release cables are encased in injection molded plastic housings.

- Integrated D-rings on top and under the cover provide convenient tie-down points for securing the BakFlip in incremental positions.

FROM SECURITY TO PERFORMANCE TO RUGGED RELIABILITY, THE HEAVY DUTY BAKFLIP DOES IT ALL!

- 50% denser core than BakFlip G2.
- Weighs only 50 lbs.
- Heavy duty weather seals.
- Handles 400 lbs of distributed weight.
- Securely locks for absolute security.
- Perfectly matches OE textures.
- Seamless EPDM hinges will not corrode or leak.
- Works with bedliners & factory rail systems.

BAKFLIP CS

Heavy Duty BakFlip Tonneau Cover and Sliding Rack system

Contractor Series

BakFlip CS comes intelligently equipped with integrated cargo management rails and a 500 lbs rated sliding contractor rack. The CS is the ultimate union between an essential truck bed cover and a heavy duty rack. The BakFlip CS rack slides on and off in just seconds and can be positioned anywhere along the length of the bed. Sliding tie-downs conveniently shift to wherever you need to secure a load. The BakFlip panels conveniently lock securely as they are shut, ensuring that your tools and other valuables remain safe, dry and out of sight. Locking your tailgate will render your BakFlip impregnable.

Equip your rack with optional sliding load management stops and sliding tie downs!

- BakFlip HD with integrated sliding rack.
- Rails accommodate sliding tie downs.
- Keep tools and valuables safe and secure.
- Rack slides on and off or to desired position.
- Cover doubles as loading platform / scaffold.
- Rack comes equipped with load grips.
- rack is powder coated for life-time warranty.
- Works with bedliners & factory rail systems.

BAKFLIP F1

The most advanced tonneau cover ever made!

Fiberglass Reinforced Polymer Top provides unparalleled impact resistance while the aluminum underside ensures absolute structural security!

OE Quality & stronger than aluminum!

BakFlip F1 is crafted to original equipment standards and specifications. The F1 panels combine an aircraft grade aluminum substrate with a baked on finish (for ultimate structural integrity), and a fiberglass reinforced polymer (FRP) top surface. The result is a very strong, lightweight cover that is extremely impact resistant and will not scuff, scratch, ding, fade, corrode or deteriorate over time. The FRP finish will withstand severe temperatures and will not expand or contract like plastic. The BakFlip F1 is much stronger than aluminum and boasts high end refined components such as injection molded cable housings, powder coated finishes and OE grade rubber seals.

- Unbeatable 2 year factory warranty!
- Upgraded rail system with integral drainage.
- Ding and scuff resistant!
- Will not get hot to the touch like aluminum.
- Converts to 2 tier loading scaffold.
- Provides 100% access to your truck bed.
- Superior performance in all seasons.
- Works with bedliners & factory rail systems.

ROLLBAK G2

All Aluminum Retractable Tonneau Covers

HeavyDuty

with dual latching system & baked on finish

Made from thick interlocking aluminum slats that are powder coated to last a lifetime!

Self aligning rails require no shimming and ensure effortless installation!

- Outstanding heavy duty Security. Just lock your tailgate to lock your RollBak.
- Self adjusting Teflon rails result in superior gliding operation.
- Easy operation from either side of the truck.
- Works with bedliners & factory rail systems.
- Flush "NO PROFILE" fit and stylish design.
- Allows full access to all stake pockets.
- Space saving, impact resistant canister.
- No drill, clamp on installation.
- 2 Year factory warranty.

Handles over 400 LBS of evenly distributed weight!

Made in USA

TILTBAK

Hard Flush Mount Tilting Tonneau Covers

The genius design of TiltBak's slam latch system means that simply closing your cover will latch it securely in a locked position. There are no visible locks or keyholes on the top of the cover.

Easy clamp on, no drill install takes just minutes.

Heavy duty hardware and components are powder coated and built to last.

Rugged diamond plate finish!

- Securely locks for absolute security.
- Seamless EPDM hinges will not corrode or leak.
- Works with bedliners & factory rail systems.
- Clamps securely to truck with no drilling!
- Hard, tough ding resistant panels.
- Lightweight operation, heavy duty feel.
- Superb all season weather resistance.
- Patented "NO PROFILE" design.

Weighs just 45lbs - Handles over 300 lbs!
Made from virtually indestructible TPO sandwich panels.

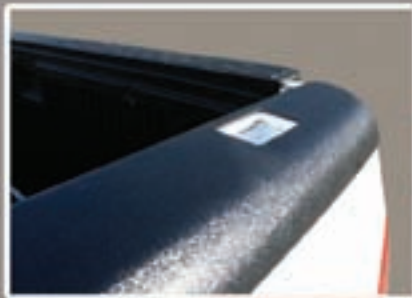

ProCaps

The world's most accurate bedcaps and tailgate caps

ProCaps are the world's leading brand of ABS bed rail protection. Their accuracy and fit are unparalleled in the industry! Precision features such as CNC trimmed stake pockets and form-fit contours ensure their superiority over all brands of bedcaps.

Stake hole pockets are precise and are never over sized or under sized.

Superior design follows precise contours of truck rails for a vacuum tight fit!

ProCaps are equipped with more 3M adhesive tape than any other brand of bed rail cap.

- Unbeatable overall OE quality!
- UV protected to withstand severe temperatures.
- Totally ding and scuff resistant!
- CNC precision trimmed for complete accuracy.

- Patent pending interior contour design.
- Will not flare out when pressure is applied.
- More 3m tape than any other brand.
- Texture matched to door handles and mirrors.

STEP-n-STOW

Running boards with built in lockable storage

Imagine being able to open up your running boards and store anything from jumper cables to fishing rods, or from tools to a work coverall inside of them?

8" Wide!
4" Deep!

Why put a plain old set of running boards on your truck when you can put on a set of Step-n-Stow boards & get **2 FREE STORAGE BOXES** at the same time?

What will you put inside yours?

- Convenient, easy access to your valuables!
- Increase valuable storage space in your truck.
- Totally organizes your truck both inside and out.
- Weather tight security.
- Large 8" wide step with heavy duty grip surface.
- Aluminum, rust proof construction.
- Strong, bolt on body mount brackets.
- Skid resistant, noise proof floor.
- Color matchable slide-in insert.
- 2 year factory warranty!

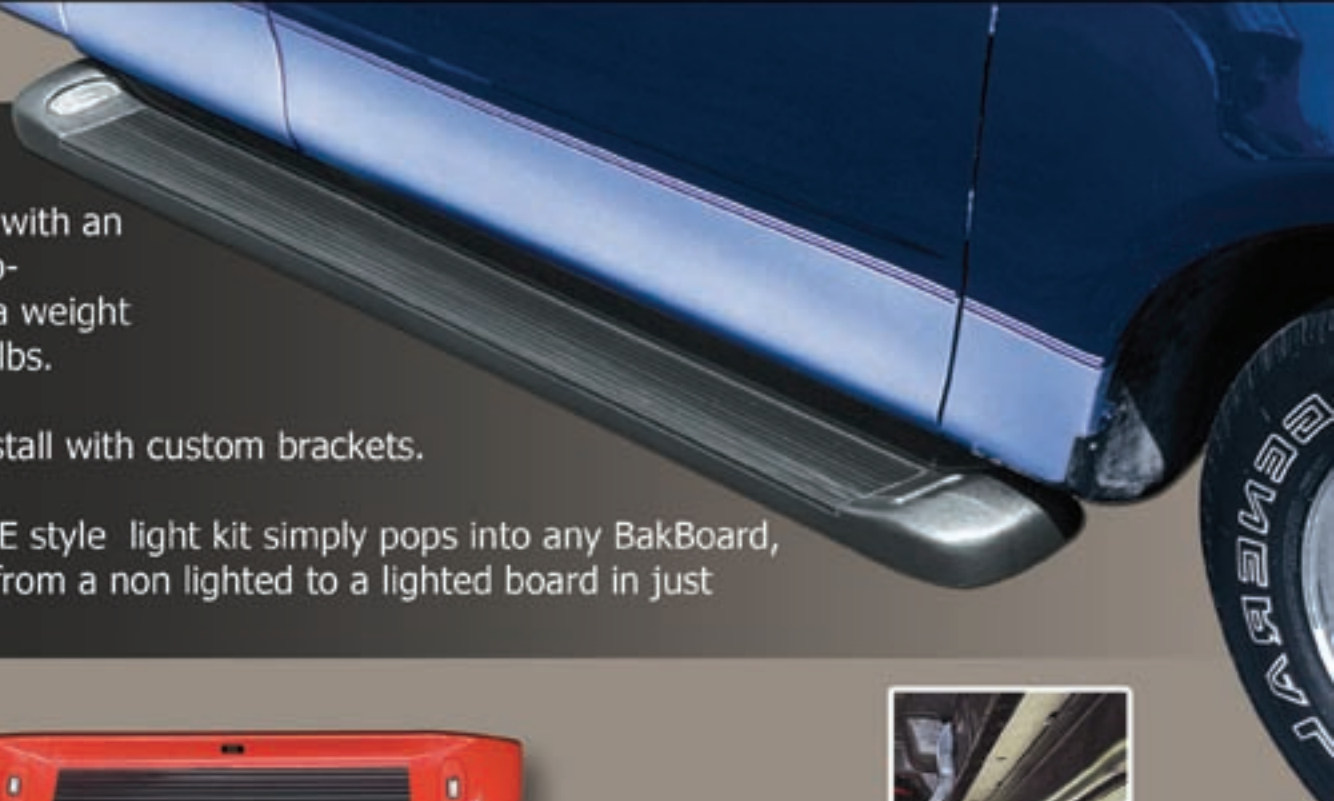

BAKBoards

OE style running boards

BakBoards are made of tough ABS with an aluminum sub-structure for a weight rating of 500 lbs.

BakBoards install with custom brackets.

An optional OE style light kit simply pops into any BakBoard, converting it from a non lighted to a lighted board in just seconds.

Bolt-on body mount brackets make installing BakBoards easy and ensure a solid 500LBS. weight rating!

Easily convert any non lighted BakBoard to a lighted board with BakBoards plug and play light kit!

6" wide step !

- Heavy duty rubber step pad.
- Solid, rust proof, bolt on brackets.
- Leave black or paint to match.
- Texture matched to side mirrors and OE trim.

- UV protected against fading.
- Impact and scuff resistant.
- 1 Year factory warranty.
- Made in 53", 70", 80" & 90" lengths.

It is our belief that just because a truck is used for work doesn't mean that it should look like a "work-truck". It is still possible to elegantly craft rugged and strong products while still maintaining a clean look of style and sophistication.

At BAK Industries we endeavor to produce truck accessories that are not only functional and practical, but made to match OE lines and existing factory accents on your specific pickup truck. BAK truck accessories are unlike any others on the market. We do not produce anything that is made by any other company.

Our products have a look and a feel that is ergonomically superior to any other brand and our patent protected features render our line of truck bed covers far ahead of any other in the industry.
